## Speak to our Team today!

AVTech has been Making IT happen by building custom-made solutions for over 30 years.

## Windows 10 End of Service (EOS)

43.13% of Windows devices in Australia are now running a sunset operating system. Continuing to use the OS past the **14<sup>th</sup> of October 2025** presents an array of risks and issues including **security vulnerabilities, compatibility issues and compliance risks.**

This transition is more than just a necessary upgrade, it may be an opportunity to modernise your environment. We will help you plan your migration strategy.

## Speak to Our Team

**No Upgrade,  
No Security,  
Unless you Pay?**

## MICROSOFT INTUNE

### Unified endpoint management

- Manage devices and apps across operating systems ensuring secure access and productivity.
- Enforce security policies for encryption security software, and compliance rules to protect business data.
- Automate device setup and configuration for consistent low touch onboarding across your workforce.

### Plan 1 (P1)

Microsoft 365 E3, E5, F1, and F3, Enterprise Mobility + Security E3 and E5, and Business Premium plans, including versions of these suites that do not include Microsoft Teams.

### Plan 2 (P2)

An add-on to Microsoft Intune Plan 1 that offers advanced endpoint management capabilities. Microsoft Intune Plan 2 is included in Microsoft Intune Suite.

### Intune Suite

An add-on to Microsoft Intune Plan 1 that unifies mission-critical advanced endpoint management and security solutions
